WELCOME

Dong Zhu

With what has been an extraordinary year for cattle breeders we are excited to be entering into the Bullselling season of South Australia for 2022. Our commitment to continue to invest in sustainable genetics within the Lakeside herd gives cattle breeders the opportunity to source new sires, females and genetics that have growth, performance and adaptability.

An infusion of new AI and Natural Sires were introduced in 2019 and 2020 with their progeny now at the forefront of the genetic pool at Lakeside, this next generation now becomes available for your inspection at the field day and will be on offer at the Annual Sale. The depth and thickness of the cattle continues to be a feature of the herd with a strong emphasis placed on colour, pigment and polled with particular attention to docility all of which are traits worthy of serious consideration within the program.

A strong team of 36 Stud and Herd Improving Sires is to be offered in the 2022 Annual Sale along with a selection of 23 Pregnancy Tested In Calf Registered Heifers and 23 Registered Weaner Heifers. The PTIC Females have been AI joined to Sires Bar 5 PFF Luke 1215X and FSMB Pol Eddy 3E all proven performers within the Lakeside program, with all heifers naturally backed up by the newly acquired sire of 2021 Woonallee Marmaduke Q244.

Lakeside will be proudly displaying in the SA Beef Week Field Day where we intend to showcase our 2022 Sale team on Monday the 7th February and then cordially invite all discerning cattle people to visit Lakeside Farm on Wednesday 9th February for the Annual On Property Sale commencing at 10.30am. Visits and inspection of the herd are encouraged and can be made available at any time by appointment.

We look forward to meeting many at the field day and on property sale and look forward to the continued prosperity of the cattle industry for all in 2022.
